CARBONHYDRATE - FCC

REF: A. DIR-27095
B. KOBA-3533
C. KOBA-7987
D. DIR-20484
E. SBRLM-1095

1. Pursuant to your request contained in reference "A", please be advised that reference "B" contains a detailed account of the contemplated interim activities since March 1953 of CARBONHYDRATE, and reference "C" explains exactly how many of these activities were accomplished by CARBONHYDRATE.

2. CARBONHYDRATE, who had been working for approximately four years as a BOB agent in East Berlin, was fired from the Volkspolizei Presidium toward the end of 1952, and subsequently, at our specific request, came to West Berlin to assume the position of security officer for CADROIT.

3. CARBONHYDRATE was introduced to me at the end of January 1953, and started to work in CADROIT the beginning of April 1953. The only change which is not reflected in reference "C" is the fact that Larrison, CADROIT case officer, was introduced to CARBONHYDRATE a few weeks ago. In the future, whenever feasible, Larrison will accompany [] or [] when they meet CARBONHYDRATE. [] as of 20 November 1953, will assume operational control and management of CARBONHYDRATE instead of the undersigned.

4. Regarding paragraph 1, reference "D". numerous conferences have taken place in the meantime, attended by [] and very recently [] We all agree that the main function of CARBOHYDRATE is to be security officer of CARMOIT. In this respect, [] and [] have agreed to instruct [] that CARBOHYDRATE is to be relieved of all the peripheral duties discussed in reference "C".

5. As far as the CASTALIA program is concerned, CARBOHYDRATE's functions will be restricted solely to channelling worthwhile SED leads to the CALCINO office. In respect to this, we can now inform you that all parties concerned, including [] and [] have agreed to channelling CARMOIT visitors of SED interest to the CALCINO office for our CASTALIA program. The first CARMOIT visitor, who had been sent by the SED from Gera, Soviet Zone, to West Berlin, in order to recruit his son living in West Berlin, was channelled to the CALCINO office on 16 November 1953. As far as can be ascertained, at the time this memorandum is being written, the channelling worked smoothly and the CARMOIT visitor was pleased to be sent to an office which, as he was told, is the final authority on SED matters. A separate report on this will be prepared by the CALCINO case officer.

6. PRG Part II for CARBOHYDRATE follows under separate cover.
